

KEEP OUR WATER CLEAN.

. . . Protect Our Drinking Water by Properly Disposing of Household Hazardous Waste.

Many common materials in our homes are potentially hazardous, and can pollute the watershed, and area creeks and lakes if they are not disposed of properly. For example, if these products are dumped into storm drains, they can directly pollute the water in our lakes and creeks – the source of your drinking water! Therefore, please help keep the water clean by properly disposing of your household hazardous wastes.

Common Household Hazardous Materials

<i>Pesticides</i>	<i>Motor Oil</i>
<i>Herbicides</i>	<i>Antifreeze</i>
<i>Fertilizers</i>	<i>Brake fluid</i>
<i>Gasoline</i>	<i>Paint / Solvents</i>
<i>Batteries</i>	<i>Aerosol Cans</i>

Upper Trinity Regional Water District and Participating Cities make it easy for you to safely dispose of your household hazardous wastes. We offer conveniently scheduled mobile collection events and voucher alternatives.

CURRENTLY PARTICIPATING

Flower Mound
Highland Village
Argyle
Cross Roads
Corinth
Bartonville
Hickory Creek
Lake Dallas
Your City*

Mobile Collection Event

** If your city is not listed, call us to discuss how your city can get involved in this program.*

For more information about how you can help protect the quality of water in area creeks and lakes - - the water you drink - - and, how to properly dispose of your household hazardous wastes, please call 972-219-1228 or visit the Upper Trinity website at www.utrwd.com.
